

CLAY

Materials:

- Air dry clay
- Old clothes to get messy in
- Rolling pin (optional)
- Mark making tools: Spoons, pencils, cookie cutters or anything else you can find around your home

Get your hands dirty and play with clay! You can squish it, bash it, roll it, flatten it, decorate it and join it to make something new and exciting. It starts off as a lump, but what will it become?

Place your little one's hand over a flat piece of clay and gently press it in to make an imprint.

Let your little one explore the mark making tools on the clay, what was their favourite?

Get your baby or toddler to squish the clay and then draw a face on it. What is your squishy monster called?
